

RG-9 HR GRANULE WASHER

The RG-9 Granule washer utilises the combined action of water, detergent and granules blasted at high pressure. The HR heat exchanging system uses the moist warm water vapour to pre-heat the incoming cold water, dramatically reducing the energy required to heat the final rinse water to 85°C.

Standard Features

- Built in booster heater and thermostop
- Display showing working temperatures
- Concave nozzles to prevent clogging
- Built in detergent/rinse aid dispensers
- Gravity drained
- Heat recovery**

**Needs hot and cold water connection

Power supply	415V 50 Hz
Total power	13.8KW
Total current	3 x 20.3 Amp
Wash tank capacity	103 ltrs
Water consumption (per cycle)	4.4 ltrs
Rinsing temp (approx)	85°C
Rack size	Ø 735mm
Tallest washable item	635mm
Weight (empty)	320 kg
Drain hose diameter	Ø 32mm
Water connection (Hot*)	3/4" hose

*Connect to hot water for optimum performance
